

Energy and Water Development			
Army Corps of Engineers (Civil)	Funds would be used to upgrade the treatment and filtration capabilities at the Copper Cove Wastewater Treatment Facility.	Calaveras County	\$11,200,000
Army Corps of Engineers (Civil)	Funds would be used for the construction of the sanitary sewer collection system as part of the Groundwater Protection Program.	Desert Hot Springs	\$2,700,000
Army Corps of Engineers (Civil)	Funds would be used for the Regional Water Supply Project which will allow for reoperation of the Redbank and Fancher Creeks Reservoirs including Big Dry Creek Reservoir.	Fresno County	\$600,000
Bureau of Reclamation	Funds would be used for efforts to reactivate historic floodplains in the Sacramento River Basin.	Glenn, Colusa, Sutter, Yolo, and Sacramento Counties	\$5,000,000
Bureau of Reclamation	Funds would be used for the Sacramento Valley Pacific Flyway Habitat Program to enhance habitat for birds utilizing the Pacific Flyway and other terrestrial species.	Glenn, Colusa, and Sutter Counties	\$2,200,000
Army Corps of Engineers (Civil)	Funds would be used for the design and eventual construction of a new water reservoir to improve water supply reliability, stabilize water pressure to the Inglewood water distribution system, and strengthen water services.	Inglewood	\$1,000,000
Bureau of Reclamation	Funds would be used for construction costs relating to the Friant Kern Canal.	Lindsay	\$5,000,000
County Sanitation District No. 2 of Los Angeles County	Funds would be used for materials and equipment to allow waste-derived biomethane to be injected into the natural gas pipeline system.	Los Angeles County	\$2,500,000
South Coast Air Quality Management District	Funds would be used for a plug-in hybrid tugboat and to install an innovative vessel charging system with batteries and hydrogen fuel cell power generation to supply zero emission power.	Los Angeles, San Bernardino, Riverside, and Orange Counties	\$500,000
Army Corps of Engineers (Civil)	Funds would be used for design activities for the Hamilton Wetlands Restoration Project.	Marin County	\$1,800,000
Army Corps of Engineers (Civil)	Funds would be used for design and construction costs of a 1/2 mile of recycled water pipeline.	Oakland and Alameda	\$2,525,000
Army Corps of Engineers (Civil)	Funds would be used for annual maintenance dredging at the entrance to both Oceanside Harbor and U.S. Marine Corps Base Camp Pendleton Harbor to ensure safe vessel transit.	Oceanside	\$500,000
Army Corps of Engineers (Civil)	Funds would be used for a feasibility study to assess the rehabilitation and reconstruction work required to recertify the levee.	Oxnard	\$500,000
Army Corps of Engineers (Civil)	Funds would be used to carry out annual maintenance dredging at the Port of Redwood City.	Redwood City	\$3,728,000
Army Corps of Engineers (Civil)	Funds would be used to restore habitats for state and federally threatened/endangered species.	Sacramento-San Joaquin Delta	\$300,000
Bureau of Reclamation	Funds would be used to continue cleanup activities.	San Gabriel Valley, Los Angeles County	\$5,500,000

Agriculture, Rural Development, Food and Drug Administration, and Related Agencies			
Mono County	Funds would be used to replace one ambulance in northern Mono County, a rural area in need of updated emergency equipment.	Bridgeport	\$215,000
County of Merced	Funds would go toward an upgrade of living quarters at Merced County Fire Department Station 83—El Nido to provide adequate living conditions for station personnel.	County of Merced	\$781,000
Fresno Irrigation District	Funds would be used for the construction of the basin, turnout, and associated appurtenances.	Fresno County	\$1,000,000
San Bernardino County Fire Protection District	Funds would purchase snow removal and natural disaster heavy equipment for the communities of Mt. Baldy, Wrightwood, Forest Falls, Angelus Oaks, Lake Arrowhead, and Crestline.	Mt. Baldy, Wrightwood, Forest Falls, Angelus Oaks, Lake Arrowhead, and Crestline	\$2,000,000
County of Butte	Funds would be used to help purchase a Type I Fire Engine.	Butte County	\$600,000
County of Inyo	Funds would go toward the construction of two separate fire stations that would house fire & emergency response apparatus.	Tecopa Hot Springs and Charleston View in Inyo County	\$1,500,000

County of Mariposa	Funds will be used to construct a new ambulance bay.	Wawona	\$375,000
--------------------	--	--------	-----------

Commerce, Justice, Science, and Related Agencies Bill			
--	--	--	--

Butte County	Funds would pay for two telecom towers on which the radios for Butte County's emergency response teams operate.	Butte County	\$3,675,161
County of San Luis Obispo	Funds would go toward replacing the existing, obsolete radio dispatch system that must be replaced by September 2024.	County of San Luis Obispo	\$2,000,000
City of Elk Grove	Funds would help expand a Domestic Violence Prevention Program.	Elk Grove	\$715,000
City of Grover Beach	Funds would go toward two initiatives: the purchase and implementation of an additional nine license plate reader cameras for the Grover Beach Police Department, and the purchase of three multiband radios.	Grover Beach	\$543,000
City of Hermosa Beach	Funds would go toward creating a Real Time Crime Center for the City of Hermosa Beach.	Hermosa Beach	\$963,000
The Regents of the University of California	Funds will go toward characterizing the full suite of toxins (DDTx and beyond) associated with dumping off the coast of California.	La Jolla	\$6,000,000
City of Lompoc	Funds would go toward a new records management system, including a Computer Aided Dispatch System, and the jail management system.	Lompoc	\$728,000
Covenant House California	Funds would go toward trauma-informed outreach to young victims of crime who are homeless.	Los Angeles	\$653,000
City of Lynwood	Funds would go toward acquiring radios to provide direct communication with the LA County Sheriff's Department, ensuring safety of public safety officers.	Lynwood	\$80,000
City of Modesto	Funds would go toward equipment, software, and technical infrastructure changes to create the Computer Aided Dispatch (CAD) at the 9-1-1 Call Center.	Modesto	\$3,530,000
City of Perris	Funds would go toward the purchase of equipment, hardware, and software for new body cameras.	Perris	\$200,000
City of Santa Ana	Funds would support an additional year of the Santa Ana Multi-Disciplinary Response Teams (SMART), a pilot program that deploys trauma-informed social workers and mental health clinicians to respond to non-emergency 911 calls.	Santa Ana	\$963,000
County of Orange	Funds would be used to implement a two-year plan to increase opioid prevention, education, and intervention services.	Orange CA	\$3,400,000
Waymakers	Funds would go toward efforts to strengthen a trauma-informed approach to victims of human trafficking identified in, and/or living in Orange County and encountering the criminal and juvenile justice system.	Santa Ana	\$731,000
City of Santa Rosa	Funds would go toward the purchase of new law enforcement technology including street cameras, license plate readers and gunshot detection software.	Santa Rosa	\$898,000

Military Construction, Veterans Affairs, and Related Agencies			
--	--	--	--

Camp Pendleton	To construct a fire emergency response station in the 53 Area of Marine Corps Base (MCB) Camp Pendleton.	Camp Pendleton South	\$2,683,000
Navy Base Coronado	To construct a Child Development Center at Naval Base Coronado.	Coronado	\$6,200,000
Army Reserves	To construct a Network Enterprise Center (NEC) on Fort Hunter Liggett, CA.	Jolon	\$40,000,000
Army Guard	To construct an automated multipurpose machine gun range at Camp Roberts.	Roberts	\$5,000,000
U.S. Navy	To construct a Child Development Center.	San Diego	\$5,600,000

Financial Services and General Government			
--	--	--	--

City of Bellflower	Funds would be used for training programs to support local small business owners and prospective entrepreneurs.	Bellflower	\$156,000
--------------------	---	------------	-----------

California Indian Museum and Cultural Center	Funds would be used to provide facilities and amenities to incubate successful micro- and small Native American traditional food businesses.	Santa Rosa	\$1,000,000
City of Tulare	Funds would be used to create a brick-and-mortar space for the regional business accelerator.	Tulare	\$2,500,000

Transportation, Housing and Urban Development, and Related Agencies

City of Alameda	Funds would be used to construct permanent supportive housing in Alameda, CA.	Alameda CA	\$2,000,000
City of Alhambra	Funds would be used to purchase a new rescue ambulance for the Alhambra Fire Department.	Alhambra CA	\$450,000
City of Avalon	Funds would be used to improve the Cabrillo Mole Ferry Terminal, a critical transit site for Avalon, which is located on Catalina Island.	Avalon CA	\$500,000
County of Butte	Funds would be used to rebuild Lumpkin Road, a seven-mile primary emergency evacuation route for the small community of Feather Falls in Butte County.	Butte County CA	\$4,000,000
City of Carlsbad	Funds would be used to complete the Carlsbad Safe Routes to School Improvements Project, which will install high-visibility crosswalks near schools and speed cushions on streets around schools.	City of Carlsbad CA	\$850,000
City of Perris	Funds would be used for construction to support the Perris Senior Center Expansion Project. Perris Senior Center is a community center that provides social, educational, and recreational opportunities for seniors.	City of Perris CA	\$1,666,279
County of Del Norte	Funds would be used for the complete renovation of the three fields to significantly improve their function and usefulness to the community, including by updating drainage systems, constructing a playground, and a jogging and walking loop.	Crescent City CA	\$500,000
City of East Palo Alto	Funds would be used for the East Bayshore Road Safety Improvements Project.	East Palo Alto CA	\$850,000
City of Emeryville	Funds would be used for construction of the 40th Street Transit-Only Lanes and Multimodal Enhancements Project to improve safety, enhance equity, and support the region's climate action goals.	Emeryville CA	\$850,000
California Department of Transportation District 11	Funds would be used for the design of the Interstate 15/State Route 78 Managed Lanes Project, which will build direct connectors between I-15 and SR-78; add a westbound auxiliary lane between Nordahl Road and Woodland Parkway/Barham Drive; and three miles of new managed lanes.	Escondido and San Marcos CA	\$4,000,000
City of Hayward	Funds would be used to construct a campus of mental healthcare and crisis services, medical clinic, and supportive housing.	Hayward CA	\$1,930,000
Imperial Irrigation District	Funds would be used to replace approximately 1,180 feet of an existing open irrigation channel with an underground 36-inch diameter plastic pipeline.	Holtville CA	\$871,280
City of Imperial	Funds would be used for phase I of the Imperial Corridor Safety Improvement Project, which will reconstruct three city streets that are connected to three schools.	Imperial CA	\$3,000,000
City of Indio	Funds would be used for active transportation improvements along Indio Boulevard, from Monroe Street to Requa Avenue in Indio, CA.	Indio CA	\$500,000
Habitat for Humanity of Greater Los Angeles	Funds would be used to help construct new homes to be sold with an affordable mortgage to low-income, first-time homebuyers.	Lancaster CA	\$1,000,000
Downtown Women's Center	Funds would be used for structural renovations to the Los Angeles Women's Center, which provides supportive housing for homeless women.	Los Angeles CA	\$1,160,000
Century Affordable Development, Inc. ("CADI")	Funds would be used to renovate an existing office building on the West Los Angeles Veterans Affairs Campus into units of permanent supportive housing for veterans.	Los Angeles CA	\$1,500,000
Southern California Regional Rail Authority	Funds would be used to install Wireless Crossing Nearsite Station Stop technology at crossings across the Metrolink system network to minimize gate downtime, vehicular/pedestrian traffic congestion and unsafe driver actions at crossings by implementing technology.	Los Angeles CA	\$1,600,000
City of Los Angeles	Funds would be used to lease and purchase facilities for LA's Inside Safe initiative, a new program to move people living in tents and homeless encampments off the streets and into housing.	Los Angeles CA	\$3,000,000

County of Los Angeles	Funds would be used for a suite of four different projects within the Westmont-West Athens community, which includes a new traffic signal installation, upgraded intersection safety improvements, and replacement of bus shelters.	Los Angeles County	\$500,000
Yosemite Community College District	Funds would be used to strengthen Yosemite Community College's Columbia College Fire Technology Program by constructing a new regional training facility and upgrading its technology and equipment.	Modesto CA	\$2,000,000
City of Monterey Park	Funds would be used to design and remodel a fire station in the city of Monterey Park. The existing fire station is aging and not in compliance with Americans with Disabilities Act standards.	Monterey Park CA	\$1,500,000
Port of Hueneme/Oxnard Harbor District	Funds would be used for a one-time purchase of a single, zero emission, air vacuum street sweeper for the Port of Hueneme to ensure that the storm runoff entering the harbor during rain events is as clean as possible.	Oxnard CA	\$850,000
City of Palm Springs	Funds would be used to complete the construction of the Palm Springs Navigation Center to provide services and resources for the region's homeless population.	Palm Springs CA	\$2,005,961
City of East Palo Alto	Funds would be used to develop a turf athletic field where kids and families can play multiple sports. Currently, there is only one playable field in the city and many have to travel 45-90 minutes each way to participate on teams.	East Palo Alto CA	\$1,600,000
City of Palo Alto	Funds would be used to assist with the 100% electrification of the Buena Vista Mobile Home Park, which currently serves 259 people, including 67 children and 52 seniors. Specifically, funding would replace aged above ground gas lines and convert to 100% electrification	Palo Alto CA	\$850,000
City of Rancho Cordova	Funds would be used to construct new affordable permanent housing units for homeless senior veterans in Sacramento County.	Rancho Cordova CA	\$1,000,000
Desert Recreation District	Funds would be used to construct a new community center in the town of Oasis, CA.	Riverside County CA	\$500,000
Housing Authority of the County of San Bernardino	Funds would be used for the construction of the Arrowhead Grove Community Resource Center, which is part of a broader 252-unit affordable housing complex in San Bernardino.	San Bernardino	\$2,600,000
Housing Authority of the City of San Buenaventura	Funds would be used for Westview Village Phase II, a redevelopment project with affordable housing apartments, a community room, early childhood center and resource hub for the entire Westview Village community.	San Buenaventura CA	\$1,000,000
City of San Diego	Funds would be used to rehabilitate and convert existing San Diego Housing Commission office space for use as a homeless shelter to serve individuals experiencing homelessness.	San Diego CA	\$1,500,000
Center of Asian Network	Funds would be used to establish a center to highlight the contributions of Chinese immigrants, specifically to commemorate the experiences of Chinese railroad workers.	San Francisco CA	\$1,190,000
San Francisco Bay Ferry Water Emergency Transportation Authority	Funds would be used to reconfigure the Vallejo Ferry Terminal in San Francisco to eliminate the need for costly dredging at the boat dock.	San Francisco CA	\$3,000,000
Asian Youth Center	Funds would be used to rehabilitate a building owned by the Asian Youth Center to better operate its emergency food program.	San Gabriel CA	\$750,000
County of San Mateo	Funds would be used to construct manufactured home sites, and the purchase and installation of new manufactured homes.	San Mateo County CA	\$3,000,000
City of Santa Monica	Funds would be used to renovate an existing affordable housing property in Santa Monica.	Santa Monica	\$850,000
County of Solano	Funds would be used to renovate a shuttered elementary school in Vallejo, CA, to establish an early learning center.	Vallejo CA	\$500,000
Solano Transportation Authority	Funds would be used for the State Route 37 and Fairgrounds Drive Interchange Improvement Project. State Route 37 and Fairgrounds Dr is a major connection point between Solano County, Napa, and American Canyon.	Vallejo CA	\$850,000
City of Indian Wells	Funds would be used to install 7,400 linear feet of Concrete Slope Protection along the north and south banks of the Whitewater River Stormwater Channel.	Indian Wells	\$5,000,000

Fresno County	Funds would go toward the rebuilding of streets, sidewalks and bike lanes, and making ADA improvements.	Fresno County	\$3,000,000
City of Huron	Funds would be used to acquire eight new HVAC systems and for infrastructure repairs to the Las Casitas de Lola Domestic Violence Shelter, which provides shelter, food, and resources to women and families fleeing domestic violence.	Huron	\$95,000
City of San Diego	Funds would be used for construction to install a microgrid.	San Diego	\$850,000
City of Rancho Cucamonga	Funds would be used to purchase land surrounding Cucamonga Canyon Trail for conservation.	Rancho Cucamonga CA	\$1,616,279
Fresno County	Funds would go toward efforts to improve streets, sidewalks, and drainage facilities in Cantua Creek and El Porvenir.	Fresno County	\$2,000,000
City of Vista	Funds would be used for construction of the Vista Complete Streets Project to address safety and access issues by slowing motor vehicle speeds and providing bicycling and walking facilities, as well as safe pedestrians' crossings at multiple points.	Vista	\$850,000

Interior, Environment, and Related Agencies

Mojave Water Agency	Funds would be used for construction to add a new traveling screen facility at the start of the Mojave River Pipeline to screen and filter out moss and debris and add a new pilot recharge basin in the upper portion of the Alto subarea, a critical groundwater resource for the region.	Apple Valley CA	\$1,750,000
Borrego Water District	Funds would be used for construction and labor to accelerate replacement of gaining water infrastructure.	Borrego Springs CA	\$3,608,800
County of Butte	Funds would be used for roadside fuels reduction efforts along many miles of county arterial and collector roads and other high-priority roadways to improve fire resiliency and fire breaks throughout high-fire severity zones in Butte County.	Butte County CA	\$3,000,000
City of Compton	Funds would be used to replace and repair failing sewer lines serving the community.	Compton CA	\$959,752
Georgetown Divide Public Utility District	Funds would be used for construction of a 2 million gallon storage tank adjacent to the water treatment facilities. This tank will provide additional water supply reliability to customers and allow the District to meet current and future needs.	Cool CA	\$1,250,000
Fallbrook Public Utility District	Funds would be used for construction to replace a primary 80-yr-old 9K ft pipeline.	Fallbrook CA	\$250,000
Resource Conservation District of Tehama County	Funds would be used for the NEPA study for the Ishi Wilderness Fire Restoration Project in order to proceed with the next phase of forest health and fuels reduction projects.	Ishi Wilderness CA	\$584,000
North Tahoe Public Utility District	Funds would be used to replace undersized water pipes and install new hydrants to create fire-resilient communities in Lake Tahoe.	Kings Beach	\$1,250,000
City of Lindsay	Funds would be used for construction of a pipeline replacement, surface water, and new water well projects.	Lindsay CA	\$1,750,000
County of Los Angeles	Funds would be used for studies for a resilient water supply, mitigate potential shortages of imported drinking water supplies, and deliver safe reliable drinking water.	Los Angeles County CA	\$350,000
City of Maywood	Funds would be used for construction to upgrade and increase system resilience, reliability, and operational functionality and address public health concerns.	Maywood CA	\$1,216,000
County of Monterey	Funds would be used to construct a new water pipeline to address ongoing water quality problems for the community of San Lucas.	Monterey County CA	\$959,752
County of Nevada	Funds would support post-winter storm vegetation abatement on critical evacuation routes across the county.	Nevada County CA	\$750,000
City of Oakland	Funds would be used for a habitation and ecosystem project to develop and implement strategies to control excessive algae growth and low dissolved oxygen concentrations in Lake Merritt to ensure aquatic wildlife survival, ecosystem balance and compliance with state and federal regulations.	Oakland CA	\$959,757
Town of Paradise	Funds will be used for the Connection Payment from the Town of Paradise to the City of Chico for the capacity of their Water Pollution Control Plant (464,000 gallons per day of wastewater).	Paradise CA	\$1,750,000

Port of Redwood City	Funds would be used for construction to upgrade stormwater infrastructure at the Port of Redwood City.	Redwood City CA	\$700,000
City of San Diego	Funds would be used to construct a Demonstration Central Area Small Scale Facility to demonstrate compliance and efficacy of recycled water requirements.	San Diego CA	\$600,000
City of Santa Cruz	Funds would be used to replace approximately 2,600 LF of the Newell Creek Pipeline located within a steep hillside off Brackney Road in rural Ben Lomond and relocates the pipeline within geologically stable ground for both landslide and earthquake protection.	Santa Cruz CA	\$959,752
City of Santa Maria	Funds would be used for the Santa Maria Storm Drainage Improvement Project that will protect the community from the worst impacts of rainfall induced flooding.	Santa Maria CA	\$959,757
City of Santa Paula	Funds would be used for construction materials to replace two water tanks ensuring reliability in standard and emergency scenarios.	Santa Paula CA	\$959,752
South Tahoe Public Utility District	Funds would be used for construction of the Pioneer Trail Waterline Project that will enhance the resilience of critical water infrastructure through improving water quality, increasing service, and enhancing fire protection.	South Lake Tahoe CA	\$1,000,000
County of San Joaquin	Funds would be used for construction and equipment to replace aging, leaky steel pipes which require frequent repairs.	Stockton CA	\$2,000,000
City of Turlock	Funds would be used for the replacement and upsizing of over 1,120 feet of pipe in Turlock in order to create a positive drainage system and alleviate serious flooding in the City.	Turlock CA	\$1,000,000
City of Twentynine Palms	Funds would be used for a septic to sewer conversion project for the long-term health of the groundwater basin and to reuse critical water supplies in the desert.	Twentynine Palms	\$1,000,000

Homeland Security

City of Anaheim	Funds would be used to renovate an existing building for a new Emergency Operations Center to provide support and essential services in event of an emergency.	Anaheim CA	\$1,500,000
City of La Verne	Funds would be used for critical upgrades to the Emergency Operations Center including technical upgrades to new equipment, reserve power and storage, data storage software, security systems for network infrastructure, and an email security platform.	La Verne CA	\$169,000
County of San Luis Obispo	Funds would be used to analyze and evaluate potential locations for off channel flood storage areas, design flood storage area levees, initiate environmental review and engage with landowners regarding the need to put existing farmland into flood easements.	San Luis Obispo County CA	\$1,200,000
County of San Diego	Funds would be used for materials, labor, design, and fuel reduction to conduct assessment of wildfire vulnerability needs of County and State fire facilities in San Diego County.	San Diego County CA	\$1,275,000
County of Napa	Funding would be used for the creation of priority fire fuel reduction buffers to protect the critical infrastructure of the Adventist Health Hospital and the Pacific Union College campus. In addition, key access and evacuation routes will be improved for residents and first responders.	Napa County CA	\$1,383,069
City of South Gate	Funds would be used to replace the current EOC which is subterranean, susceptible to flooding, and not ADA-compliant for ingress and egress.	South Gate CA	\$1,226,000

Labor, Health and Human Services, Education, and Related Agencies

Fresno County	Funds would be used for construction and renovation of the Adult/Youth Psychiatric Health Facility.	Fresno County CA	\$1,000,000
Save the Children Federation, Inc.	Funds would be used to increase rural children's access to food and educational resources with a particular focus on children of migrant workers, Native American families, and those experiencing homelessness.	Fresno, Tulare, Los Angeles, Kings, and Madera CA	\$1,000,000
Digital Nest	Funds would be used for construction costs to expand and update Gilroy's first Youth Impact Center.	Gilroy CA	\$840,000
California State University East Bay	Funds would be used for a California Promise Neighborhood program for personnel, sub-contractors, supplies, and other program expenses.	Hayward CA	\$1,200,000

County of Los Angeles	Funds would be used to build a new Mental Health Urgent Care Center at the University of Southern California's Restorative Care Village.	Los Angeles CA	\$1,500,000
Madera County	Funds would be used to purchase emergency medical equipment.	Madera CA	\$940,000
UC Davis Health	Funds would be used for facilities and equipment for the UC Davis Health Institute on Wildfires, Health, Equity, and Resilience.	Sacramento CA	\$1,800,000
South Bay Community Services	Funds would be used for a California Promise Neighborhood program for personnel, sub-contractors, supplies, and other program expenses.	San Diego CA	\$876,000
San Diego Zoo Wildlife Alliance	Funds would be used for equipment for the Native Biodiversity Corps program.	San Diego CA	\$500,000
County of San Diego	Funds would be used to acquire equipment for a new public health laboratory for San Diego County.	San Diego County CA	\$2,500,000
Mission Economic Development Agency	Funds would be used for a California Promise Neighborhood program for personnel, sub-contractors, supplies, and other program expenses.	San Francisco CA	\$750,000
City and County of San Francisco	Funds would be used for the renovation and expansion of the Southeast Health Center to house two outpatient behavioral health programs currently located at leased sites.	San Francisco CA	\$1,000,000
Asian Health Services	Funds would be used for equipment at the Asian Health Service's new community health and wellness hub.	San Leandro CA	\$1,000,000
Susanville Indian Rancheria	Funds would be used for the construction of a new facility to expand services and meet critical health needs in the area.	Susanville CA	\$2,500,000
Mt. San Antonio Community College District	Funds would be used to purchase equipment and supplies required for Mt. San Antonio's Wildland Fire Training Program, which would prepare students for high-wage jobs in wildland firefighting.	Walnut CA	\$534,000

TOTAL	\$264,187,351
--------------	----------------------
